The Senior Class of 2016 Reflects on their Time at St. Xavier ...

Attending Saint Xavier for all of high school has impacted my life by allowing me to feel comfortable enough to grow out of my shell and become involved in many school activities. The people who I now call my family encouraged me to become involved instead of hiding in the shadows. Saint Xavier has shaped me into the person I am today.

My learning experience was one that I will never forget. The class sizes were small, so I got the one on one attention I needed. The teachers cared about my education and wanted the best for it. The teachers also gave me more challenges to work with to push me to my full potential.

Even after thirteen years, Saint Xavier still feels like a family more than a school. The small number of students along with the great teachers has made my time here a home away from home. There's no school I'd rather be at than Saint Xavier.

Saint Xavier means family. The people I have met will follow me for the rest of my life.

Saint Xavier's to me has meant family. There is nothing I have ever seen like the close-knit family inside this school. I have been here for seven years now, and I owe all of my success, be it academic, athletic, or musical, to Saint Xavier's. No other place will welcome you in and reach out to you when you're struggling, even if it is personal. In short, Saint Xavier's is more of a family that teaches rather than a school.

St. Xavier's 2016 graduating class of 9 received more than \$250,000 in scholarships.
