

## **THIS SCHOOL FEELS LIKE A BIG FAMILY.....**

"As a military family, starting over in new places is par for the course. We found St. Xavier in our second year living in Kansas, and fell in love. This school feels like a big family, in a place that is nowhere near our own families! Our girls have made so many new friends, and the teachers and faculty that have been directly involved with them have treated them like their own. We are so thankful to have found not only a village to teach our girls, but also a group of leaders to present things within a faith-based curriculum."

**"Teaching at Saint Francis Xavier Catholic School has been a wonderful opportunity. Having smaller class sizes allowed me to know each of the students not only on a learning level, but also on a personal level. I was able to help each child grow academically, spiritually, and personally."**

## *Having grades Pre-K through 12th is a huge plus.....*

"Our family has been around the world twice and decided to settle down in Kansas because of the St. X School and Parish. From day one we saw that the teachers and staff here at St. X are passionate about the care and education provided to the students. The small class sizes are a plus because it allows each student to get the attention they need on an individual basis. Having grades Pre-K through 12th is also a huge plus because we do not have to drive to different schools to drop off our kiddos."

## *.....INCORPORATES THE CATHOLIC FAITH IN DAILY LEARNING*

**"St. Xavier has become our home away from home over the past 2 years. The teachers really have gotten to know my children throughout our time at St. X. The class sizes are small and really allow the teacher to cater to my children's individual needs. My children have learned so much about their Catholic faith by being in a school that incorporates the Catholic faith in daily learning. St. Xavier has truly helped my children grow not only as students but also as kind, respectful kids."**
